

User Guide for the Blockchain-Based Digital Voting System

Introduction

Welcome to the Digital Voting System, a secure and transparent platform built on blockchain technology. This guide will help you understand how to use the system from start to finish.

Table of Contents

1. Getting Started
2. Creating Your Voter Account
3. Logging In Securely
4. Casting Your Vote
5. Verifying Your Vote
6. Help & Support

1. Getting Started

To use the platform, make sure you have:

- A valid Voter ID
- A secure internet connection
- A smartphone or computer

Your information is encrypted and stored securely on the blockchain.

2. Creating Your Voter Account

Follow these steps to register:

1. Click Sign Up
2. Enter your Full Name, National ID, Email, and Password
3. Agree to the Terms & Conditions
4. Click Register

You will receive a verification link via email.

3. Logging In Securely

1. Go to the homepage and click Login
2. Enter your Email and Password
3. Complete the 2FA (Two-Factor Authentication)

Never share your login credentials with anyone!

4. Casting Your Vote

1. Select the Ongoing Election
2. Review the list of Candidates or Referendum Options
3. Click on your preferred choice
4. Confirm your vote
5. Hit Submit Vote

Once submitted, the vote is final and stored securely.

5. Verifying Your Vote

Navigate to My Vote History

- View the Hash ID and blockchain record
- Confirm timestamp and candidate

This ensures that your vote is tamper-proof.

6. Help & Support

If you need help:
